

ACTIVITY SHEETS!

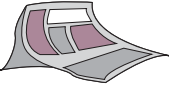

CAN YOU GUESS HOW LONG IT TAKES FOR THE ITEMS BELOW TO ROT AWAY?

BIODEGRADABLE MATCH-UP TABLE

Biodegradable is the word used to describe what happens when things rot away or decay.

Draw a line from each item and match it with the length of time you think it takes for each item to rot.

Item	Length of time it takes to rot away
 Piece of paper	10 - 20 years
 Orange peel	80 - 100 years
 Tin can	2 - 5 months
 Plastic bag	1 million years
 Aluminium can	6 months
 Glass bottle	50 - 100 years
