

MANIFESTO FOR YOU

TO EVERYBODY
FROM ALL OF US

If you believe in equality and a right to live in peace, prosperity and happiness with love and friendship, if you believe in a better society where people are judged on who they are and not where they are from.

THIS IS FOR YOU

This is for the suicidal man seeking help who can't find it. This is for the vandal with nothing to look forward to. This is for those projecting racism, and those impacted by it.

THIS IS FOR YOU

We deserve a society where everybody loves and nobody hates, where there's room for everyone. We deserve a society where Liberty, Justice and Freedom are achieved through love, not violence. We deserve an equal society, achieved with better knowledge, feelings and actions from all of us. But OUR society has so many

problems which people continue to deny; racism, substance abuse, vandalism, suicide and mental health. For those denying problems, inequalities and prejudice.

THIS IS FOR YOU

Stop defining people to suit yourselves and putting them into a box. We deserve a society without 'our people' and 'their people' – just people. Accept that our society is made up of multiple stories from different viewpoints. For those who are experiencing these problems.

THIS IS FOR YOU

You deserve education. You deserve better services. You deserve preventions not cures, and a focus on wellbeing, not sickness. We don't just want suicide awareness – we want to stop people dying. You deserve more jobs, investment and apprenticeships. You deserve a society where we can understand

different values and religions and where respect is guaranteed for all. You deserve a society where mental and physical health is treated with respect and dignity. We are calling on everyone to tackle these problems at their heart with more human contact, and understanding. We are calling on everyone to change things.

If you want to change something, change it!

We believe in us and we believe in you so start today and make change happen wherever you are, however you can. It is time to stop labelling and start living.

THIS IS
FOR
YOU

THIS IS FOR
EVERYONE
