

# Leaf Design

**Using the colours of nature, create beautiful pieces of art.**

This is a very simple but effective activity which everyone enjoys. Have a piece of card for each child in the class. It can be as large or small as you wish, a card 5cmX8cm would be adequate.

Attach double sided sticky tape to each card.

Explain to the children how they are to use them – remove the protective part off the sticky tape. Ensure that they do not throw this away but either give to the leader or keep in their pocket until they find a bin.

They can either find leaves which they have been discussing and identifying, or they can look for leaves of many different colours. Finding different colours is popular especially when autumn provides us with so many.

**Finaghy P.S pupils looking for leaves for their art work in Wedderburn Park**

**Pupils from Wheatfield P.S with their finished leaf design in Ballysillan Park**
