

3. Household recycling centres

Aim:

To provide recycling centres across Belfast, keeping them in a clean and useable state for customers and ensuring they stay open as according to the published opening hours.

What you get:

- Easily accessible, state of the art recycling centres in the North, South, East and West of the city.
- Centres that have regular opening hours, are emptied and cleaned regularly.
- Knowledgeable recycling centre staff to give you advice, guidance and physical assistance on site when required on recycling.

What we don't do:

- We will not accept asbestos or waste from commercial enterprises at any of Belfast City Council household recycling centres.
- We will not accept large quantities of Brick Rubble Waste (over 40kg) at any Belfast City Council household recycling centre.

How can customers help us?

- Adhering to all site instructions.
- Putting recycling materials in the correct bank.
- Complying with any health and safety instructions on site or requests from staff.

Target:

To make sure our household recycling centres stay open 90% of the time, excluding periods of refurbishment or forced closure.
